

**Regional Studies Association Winter Conference 2014**  
**Sustainable Recovery? Rebalancing, Growth, and the Space Economy**

Abstract and Final Paper Submission Guidelines

**Abstracts:**

Abstracts of up to 400 words are to be in TEXT format only. Graphs, diagrams, pictures, headers, footnotes, and tables are not permitted. These may be included in your final paper and will be published in the conference book, which carries an ISBN number. Please upload your abstract to the online registration portal by Monday 18<sup>th</sup> August 2014.

Each participant may only be the lead presenter in one presentation. If you are involved in more than one presentation one of your co-authors will need to submit the second abstract when they register. Each lead presenter should list all co-authors on the papers, in the order you want them to appear in the programme.

**Final Papers:**

You will not be able to submit your final paper until your presentation has been formally accepted by the conference committee. We ask for a maximum of 1500 words for workshop presentations and 3000 words for plenary speakers. Please send us the final paper by 6<sup>th</sup> October 2014.
